

Kaohsiung Medical University Experience Education Program @ Treatment of Wastewater (KEEP@TW)

The Ministry of Education-Taiwan launched a new program titled “Taiwan Experience Education Program at Asia Plus (TEEP@AsiaPlus)” scheme to welcome Asian Countries students to join and explore different universities and colleges in Taiwan for short-term internships. This KMU Experience Education Program @ Treatment of Wastewater (KEEP@TW) program is promoted, funded, and approved by the Ministry of Education-Taiwan (MOE), proposed and organized by Kaohsiung Medical University (KMU), and co-organized and supported by TEEP@AsiaPlus and Elite Study in Taiwan (ESIT).

The College of Life Sciences at Kaohsiung Medical University leads the KEEP@TW Program, recruiting international students and placing them in suitable companies. Participants receive guidance from professional faculty members or industry mentors and undergo 4 to 6 months (minimum 4 months, maximum 180 days) of training and internships tailored to their interests and expertise, gaining valuable hands-on experience. If students perform well during the internship, the company may consider offering them a job with benefits comparable to those of Taiwanese employees after the internship ends or upon graduation.

Internship Companies:

Anatek Enterprise Co., Ltd. – A leading domestic manufacturer and distributor of water quality monitoring and analysis instruments. This program aims to cultivate international talent by providing students with comprehensive knowledge of advanced water treatment and monitoring equipment design while enhancing their expertise in water quality calibration and electrochemical technology.

WD Agritek Co., Ltd – This company specializes in smart livestock equipment, providing automated farming solutions that comply with European animal welfare standards. It offers students insights into advanced livestock equipment design. Additionally, Wei-Ding imports foreign breeding pigs and connects international breeding pig companies with Taiwanese pig farmers, enabling students to engage in advanced biotechnology applications such as breeding pig gene sequencing.

Program:	KMU Experience Education Program @ Treatment of Wastewater (KEEP@TW)
Field:	Natural Science
School:	Kaohsiung Medical University (KMU), Taiwan
Organizer:	College of Life Sciences
Co-Organizer:	Taiwan Experience Education Program at AsiaPlus

Internship Period:	4~6 months (Minimum term should be at least 4 months ; Maximum of 180 days)
Application period:	2025/4/1-2025/4/20 2025/5/1~2025/5/20
Result Announcement:	It will be sent via email after arranging a Google Meet interview within two weeks after the deadline.
Internship Period:	Starts at 2025/6/1 and ends at 2025/12/31
Internship covers:	The TEEP program offers monthly scholarships of NT\$15,000 from the Ministry of Education (MOE) of Taiwan. Applicants are responsible for their own airfare, accommodation, and insurance expenses. Additionally, participating companies provide a monthly NT\$12,000 scholarship during the internship (not applicable during school training).
Eligibly:	<ol style="list-style-type: none"> 1. Must hold Citizenship of any Asian country except Taiwan 2. Current undergraduates/graduates (master/doctoral) students or graduated/degree holders of bachelors/masters or company/industry workers are eligible to apply for this internship 3. Educational background must be in chemistry (any branch) or life sciences.
